Our Capabilities

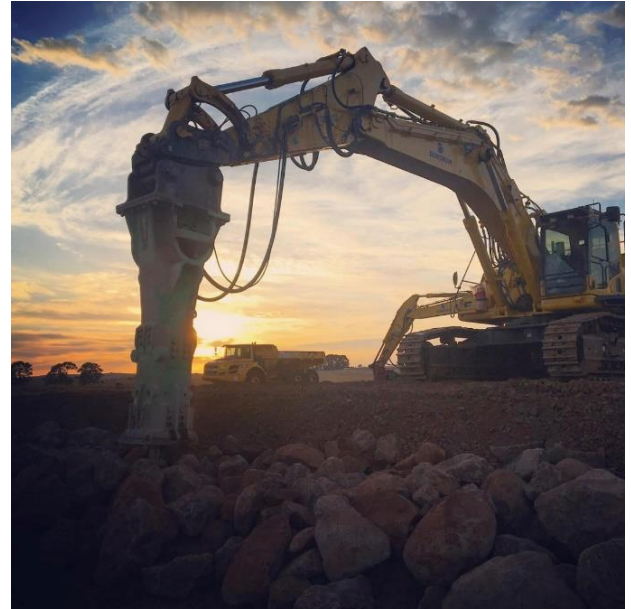

About Dundrum Civil

Dundrum Civil is a privately owned, medium-sized earthmoving and civil engineering construction company. Based in Brisbane, Dundrum has expanded operations, establishing a Victorian Division in Geelong.

Having been in operation since 1996, Dundrum has an excellent reputation as an efficient and quality plant hire, earthmoving and civil engineering construction company.

The company has seen continuous growth over recent years, developing from predominantly plant hire operations to a civil engineering contractor performing on a vast array of large-scale projects, reaching an annual turnover of \$40-50million.

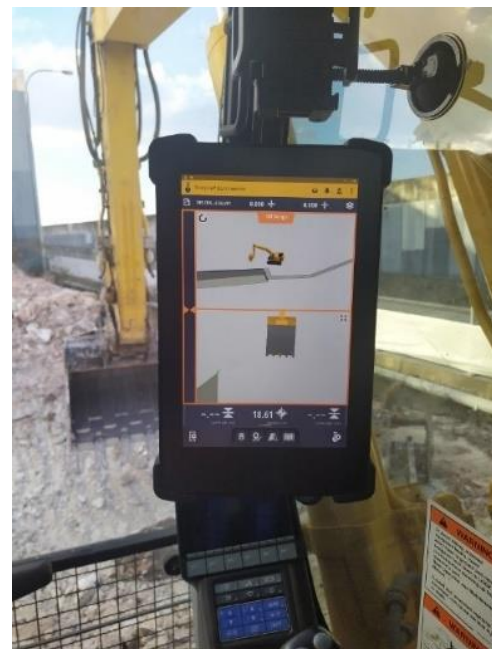

A skilled workforce underpins this continued success alongside a large and well-maintained plant fleet, best-practice safety, and management systems together with a proactive approach to deliver excellent project outcomes for our clients.

Dundrum is led by Michael O'Brien who has over 30 years of industry experience, supported by the knowledgeable management team who works closely with our clients to deliver quality projects safely, on time and within budget.

We place substantial emphasis on strong and open, relationships within our industry. Our key values include immediate dedication, hard work and a desire to value add to projects by providing resourceful and cost-effective solutions.

In recent years we have started focusing on the renewable sector, emphasizing our capabilities to delivering a more sustainable future.

Wind Capabilities

In line with transitioning global and national trends moving from the gas industry to the renewables sector. Dundrum Civil has primarily focused contract works in the renewables sector, building a reputation on significant wind farm projects providing a wide range of services from civil works to plant hire.

Experience

- Project Management / Construction Planning
- Access Tracks/Hardstands Construction
- Detailed Foundation Excavations
- Bulk Earthworks
- Material Processing
- Drainage Works

Clients

- Zenviron
- WBHO/SNC Lavalin
- Catcon Marais (Tesmec)

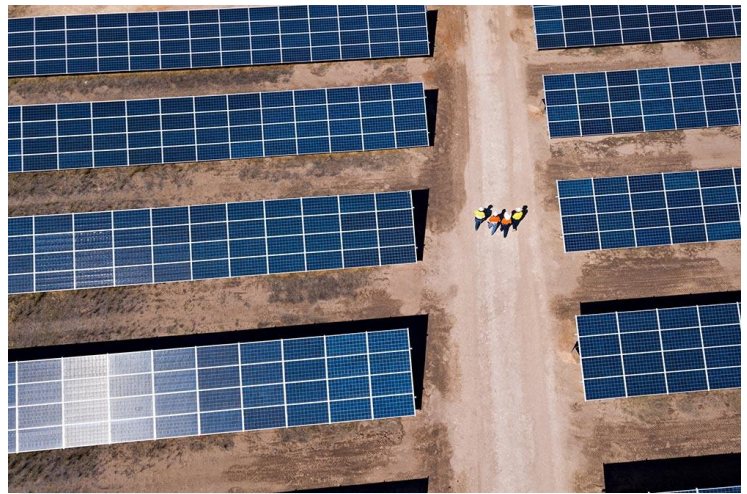

- 336MW **Dundonnell Windfarm** - Internals Access Roads (15km), Hardstands (30 no) and Foundations (30no) package.
- 530MW **Stockyard Hill Windfarm** - Internals Access Roads (44km), Hardstands (65 no) and Foundations (65 no) package.
- 453MW **Coopers Gap Wind Farm** (QLD) -Plant Hire
- 420MW **Macarthur Wind Farm** 2010 (VIC) - Plant Hire

Solar Capabilities

Our focus has also been on solar farm renewables energy projects across Australia as a company we have the capacity to deliver large scale projects.

Dundrum can offer a complete range of project services within the solar sector from contract works to providing plant hire for specialized roles.

Experience

- Dig-Lay-Bury services
- Internal access roads
- Earthworks and Drainage works
- Trenching
- Backfilling and compacting of trenches to project required specifications.

Solar Farm specific equipment.

- Trout river flocon sand truck with conveyor, optimized for spreading thermal sand evenly and efficiently.
- 22 Tonne Cable Jinker trailer, capability of lifting varying sizes of cable drums safely and effectively.

Clients

- RCRTomlinson
- APA Group
- Eco Solar
- Marais (Tesmec)

Projects

- 110MW APA Darling Downs Solar Farm
- 174MW Wellington Solar Farm
- 40MW Griffith Solar Farm

Specialised Hire

Our intensive experience and knowledge within sheet piling and bore piers installation have given us an excellent reputation in these specialised areas.

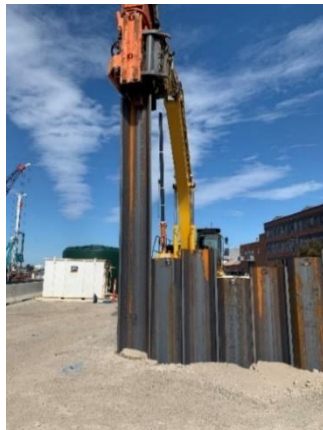

Dundrum has worked across a wide range of significant projects from highways, bridges, and many riverbank remedial works projects.

Dundrum can install sheet piles, Tubular, H-beams, timber, and many others.

Equipment

- Movax vibratory Pile Driver – Safe sheet side grip technology
- Movax Hammer
- Pilot drill

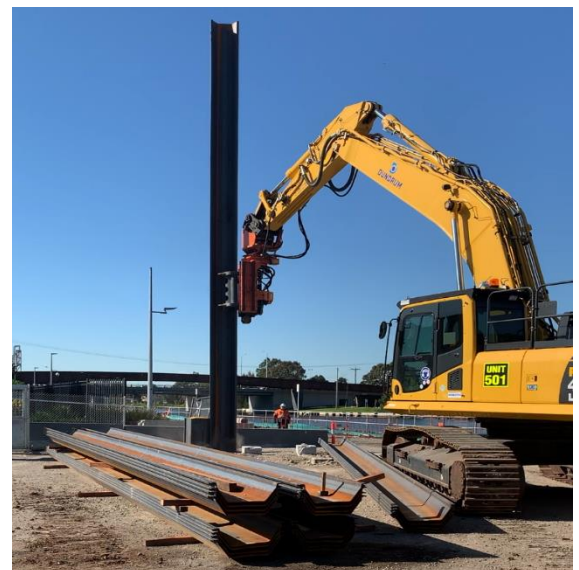

Clients

- Lendlease
- SEE Civil
- CPB
- BMD
- Clough
- Acciona
- John Holland
- FKG
- WBHO
- CMC
- Avo Pile
- Oceania

Projects

- Westgate Tunnel Project (VIC)
- M1/M3 Pacific Upgrade (QLD)
- Gold Coast Light City Rail (QLD)
- Westconnex Sydney (NSW)
- Pacific Highway - (QLD)
- Bruce Highway - Cooroy to Curra upgrade (QLD)
- Gateway Upgrade Project. (QLD)
- Woolgoolga to Ballina Pacific Highway Upgrade. (NSW)
- Metro Tunnel (VIC)

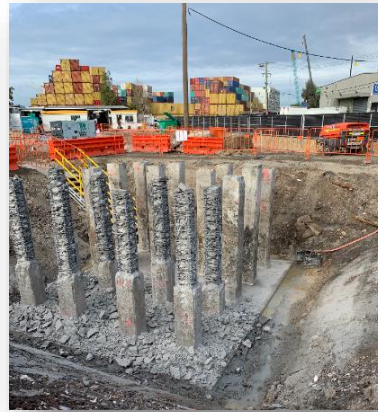

Pile Trimming Capabilities

Our Company specialises in concrete pile cutting and cropping equipment which makes piling works safe, efficient and perform to a high standard.

Equipment:

- Motocut 500 pile cutter is a fast, safe, high quality attachment for cutting and de-heading driven concrete Piles.
- Pile Cropper PC500 01 AUS
- We ensure high-quality maintenance we have fully equipped workshops at both of our head offices and have a mobile team of diesel mechanics

Clients:

- CPB/John Holland
- McConnell Dowell
- Maca Infrastructure
- Decmil
- Badge Construction

Projects:

- Westgate Tunnel Project (VIC)
- Brisbane Airport - New Parallel Runway Phase 2
- Moggs Creek (VIC)
- Dryandra Road Overpass Brisbane

Earthworks & Drainage

From the early days of Dundrum Civil bulk earthworks and drainage have been the backbone and staple of works performed, with decades of knowledge and understanding the full spectrum of requirements for each individual project.

We have the capability to offer a complete range of project services in relation to earthworks/drainage from inception to completion including cost estimation, early works involvement and value engineering as well as procurement and project management.

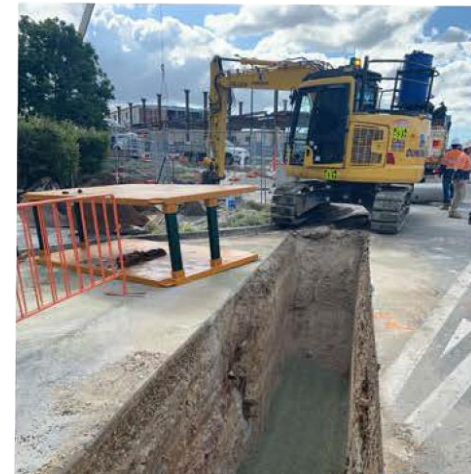

Experience:

- Bulk Earthworks
- Rock Crushing - Material Processing
- Detailed Excavations
- Stormwater Drainage
- Rehabilitation works

Clients

- CBGU JV – Cross River Rail
- BMD – Carmichael Rail
- Zenviron – Dundonnell Windfarm
- WBHO – Stockyard Hill Windfarm
- Maca Infrastructure – Moggs Creek
- CPB – Inner Northern Busway
- Lendlease – GUN – Retention Ponds
- Acciona – Legacy Way – Drainage
- Acciona - Legacy Way – Watermain Diversion

Plant Hire Services

Dundrum Civil is a leading Australian civil contractor with an excellent reputation in plant hire services. We have been Providing wet hire and dry hire equipment to major civil, pipeline, energy, and mining projects since 1996. We have a wide range of plant, suitable attachments, designed to meet the requirements of a variety of jobs and applications.

Plant & Equipment Hire

- 1.5t -70t Excavators
- Wheeled Excavators
- Graders
- Dozers
- Articulated Haul Trucks
- Articulated Water Trucks
- Wheeled Loaders
- Skid Steer
- Compactors
- Float Hire

Specialised Plant/Attachments:

- Telescopic Excavator
- Longreach Excavators
- Sheetpiling Equipment
- Jaw Crusher
- Flocon Truck
- Moto-cut 500 pile Cutter
- Concrete Pile Cropping
- Excavator Mounted Diamond Saw
- Vacuum lift attachments

Recent Plant Hire Projects

- CPB – Paradise Dam
- CBGU JV – CRR
- CPB – APLNG Gas Gathering
- Zenviron – Crudine Windfarm
- NACAP – Arrow Energy
- BMD – Carmichael Rail
- CPB – Logan Enhancement
- Skyway JV – Brisbane Airport
- CPB - Logan Enhancement
- Nexus – Toowoomba Range

Our Management Systems

Safety

In addition to stringent Australian and International certification we also hold membership with Advanced Safety Systems Australia (ASSA) allowing Dundrum to maintain an up to date Work Health and Safety Compliance System to ensure we continue to meet Government Legislative requirements. Our primary objective in all our operations is always to achieve zero harm.

Environment

As we primarily operate within the environmentally sensitive earthmoving industry, we are acutely aware of our environmental responsibilities at each and every work site.

Our implemented operating procedures reflects our commitment to prevention of environmental impact and pollution whilst complying with all regulations and legislation. We also aim to satisfy community wishes in dealing with environmental issues and take a serious view on our responsibilities pertaining to the environment.

Quality assurance

Our management continues to strive for excellence in the services provided and to meet industry expectations. Our QA system embraces regular audits to ensure that all facets of QA are achieved such as document control, compliance inspections, monitoring and measurement of service and much more.
